EUSDR PA10 – Institutional Capacity & Cooperation

Enhancing Regional Cooperation in the Danube Basin: Stronger Together

03 April 2025 | Mostar, Bosnia and Herzegovina

Cross-Border Emergency Health Care

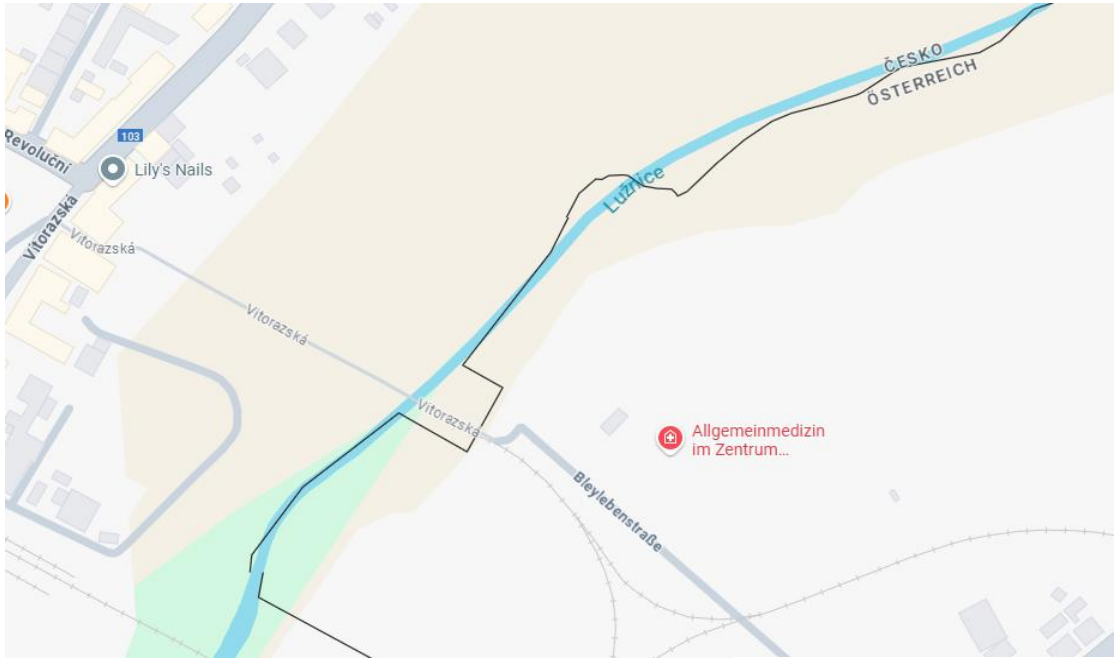
- How can a feasible legal framework be established?
- How can administrative healthcare procedures be harmonised/jointly developed?
- What standards for medical equipment need to be established, and which technologies can facilitate cross-border cooperation?
- How can partners overcome language barriers and build trust in the quality of cross-border emergency healthcare?

Heal Now

- **HEAL NOW** is a pioneering healthcare project between **Austria and Hungary**.
- The goal is to establish a **long-term cooperation** in the healthcare sector.
- Focuses on creating a **joint legal framework** for collaboration.
- Aims to develop **technological cooperation** in **digital pathology** between hospitals.

Health Across for future

- A **cross-border project** between **Austria and Czech Republic** focuses on healthcare harmonization.
- Targets the regions of **Gmünd (Austria) and České Velenice (Czech Republic)** for **equal healthcare access**.
- Austria and Czech Republic established a **two-level bilateral agreement**.
- Implemented a **communication software system** to **overcome language barriers**.



Thank you!
